

PHYSICIANS PRACTICE

AMERICA'S LEADING PRACTICE MANAGEMENT JOURNAL

Physicians Practice is an award-winning practice-management journal circulated monthly to more than 275,000 physicians nationwide.

Published by CMPMedica, a division of United Business Media, *Physicians Practice* provides expert advice on effective management of the business and operational aspects of medical practices by providing practical, proven solutions in the areas of billing, coding, collections, compensation, finances, legal concerns, staffing, technology, and workflow.

In 2007, *Physicians Practice* earned 17 prestigious editorial, research and design awards. In 2006, the journal was recognized as the “Best Publication of the Year” by the American Society of Healthcare Publication Editors (ASHPE).

Physicians Practice conducts and publishes the results of four annual surveys:
Fee Schedule Survey – fees charged for the most common services
PayerView – insurance payers graded on their performance
Technology Survey – shared stories of tech successes and failures
Compensation Survey – a comparison of physician salaries, overhead and other financial data

Physicians Practice also provides practice-management advice through a variety of popular formats including: a content-rich website that received more than 1 million visits in 2006; e-newsletters circulated to more than 40,000 opt-in subscribers; and free webinars on a variety of practice-management topics.

Physicians Practice is distributed free of charge to physicians in specific geographic regions through marketing partnerships with more than 60 hospitals and medical centers. Partners include academic, community, faith-based, and specialty hospitals.

Physicians Practice is also available via paid subscription. For more information, visit www.PhysiciansPractice.com.
