Are you prepared for ICD-10?

The role technology plays in transitioning your practice to ICD-10 can't be overstated. In this briefing, Greenway Health discusses how to inventory your existing technology, identify the best tools for your practice and help you plan for implementation.

The role technology plays in transitioning your practice to ICD-10 can't be overstated. In this briefing, Greenway Health discusses how to inventory your existing technology, identify the best tools for your practice and help you plan for implementation.
